## DETAILED ACTION

Claims 24-38 are pending in the instant application.

### *Amendments*

The amendment to the claims received on April 3, 2006 has been acknowledged and has been entered into the record.

### *Election/Restrictions*

Claims 25-28 and 30-38 were withdrawn from further consideration by the Examiner as being drawn to a non-elected invention in the office action mailed on December 29, 2005

### *Previous Claim Rejections - 35 USC § 103*

Claims 24 and 29 were rejected under 35 U.S.C. 103(a) as being unpatentable over Hess et al. (USPN 4,011,262) in view of Boeckman et al. (*J. Org. Chem.* 1986, 5489-5490) in the office action mailed on December 29, 2005. Applicant's arguments received on April 3, 2006 were found to be persuasive and the rejections of claims 24 and 29 have been withdrawn.

### *Previous Double Patenting Rejection*

Claim 29 was rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 19-22 and 47-50 of USPN 5,422,368. Applicant has given authorization to the Examiner to cancel claim 29 in order to obviate the rejection. Therefore, with the cancellation of claim 29, the rejection is withdrawn.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward D. Robinson on April 19, 2006.

Delete claims 25-38.

***Reasons for Allowance***

The instant application cites 13,14-dihydro-17-phenyl-18,19,20-trinor-PGF<sub>2α</sub>-isopropylester. The closest art teaches the composition comprising 13,14-dihydro-17-phenyl-18,19,20-trinor-PGF<sub>2α</sub>-isopropylester and an ophthalmologic compatible vehicle (USPN 5,422,368.) Since a restriction requirement was made between the compounds and compositions in the parent case, the instant compound is patentably distinct from the composition. Therefore, claim 24 is allowed. The restriction requirement made on September 30, 2005 is hereby withdrawn.
